Education

M.Sc. in Media Informatics, Berliner Hochschule für Technik

- 10/2025 - Present / Note: Available full-time for entry-level positions

B.Sc. in Media Informatics, Berliner Hochschule für Technik

- 04/2021 - 09/2025
-

Professional Experience

Intern Machine Learning Charité – Universitätsmedizin Berlin | 11/2024 – 02/2025

- **Model-Development:** Development and training of an ML model for the automated classification of surgery-related complications to support medical diagnostics.
- **Data Privacy & Compliance:** Processing and analysis of highly sensitive patient data in compliance with GDPR guidelines, as well as implementation of anonymization procedures to ensure data security.
- **Model-Optimization:** Evaluation and improvement of the model's prediction accuracy.

Freelance Full-Stack Developer (Project Basis) | 08/2025 - Present

- **Full-Stack Digitization:** End-to-end development of a driving school management system to transform paper-based processes into automated digital workflows, including requirements analysis.
 - **Security by Design:** Independent implementation of the entire development cycle from initial risk analysis to the hardened deployment of the application.
 - **Data Privacy & Compliance:** GDPR-compliant system architecture and database modeling to secure sensitive personal data.
-

Projects

Bachelor Thesis: Knowledge Tracing System with Recommender System

- Development of a Deep Learning Knowledge Tracing System for educators.
- FastAPI Backend with PyTorch AKT model integration and Next.js Frontend.

Decentralized Exchange (DEX) for Cryptocurrencies

- Development of a decentralized trading platform on the Polygon Amoy Testnet.
- Integration of Web3 functions and real-time rates via CoinGecko API.

Skills & Tools

Development: TypeScript/JavaScript (Next.js, MERN), Python (FastAPI, TensorFlow), Java, SQL, REST APIs, Git, Linux, Windows.

Cybersecurity: Incident Response, Malware Analysis, Security Monitoring, Splunk (SIEM), Wireshark, Nmap, Snort, Zeek, PhishTool, MITRE ATT&CK & D3FEND (Practical application via TryHackMe, Top 2% worldwide).

Network & Infrastructure: TCP/IP, DNS, HTTP/HTTPS, SSH, SMTP, Firewalls, IPS/IDS, VLAN, OSI Model, Network Traffic Analysis.

Compliance & Standards: DSGVO (Privacy by Design), Basic understanding of IT Security (BSI-Grundschutz/ISO 27001 concepts).

Languages: German (Native/C2), English (Fluent/C1), Turkish (Fluent/C1).
